Education

SRM Institute of Science and Technology

Bachelors of Technology in Computer Science and Engineering

Sep. 2023 – May 2027

Chennai, Tamilnadu

Experience

Interain AI

Business Development Intern

Apr 2026 – Present

Chennai, India

- Collaborating with the management team to support business growth initiatives and strategic planning.
- Assisting in client acquisition, requirement analysis, and identifying potential market opportunities.
- Coordinating with cross-functional teams to ensure smooth execution of projects and deliverables.
- Contributing to performance-driven tasks, including project-based assignments and business operations.

Zudoc Private Limited

Backend Engineer Intern

Mar 2026 – Present

New Delhi, India

- Designing and implementing a scalable backend database system for efficient data storage and retrieval.
- Developing backend APIs to connect the database and search engine with the web application.
- Performing end-to-end testing and optimizing system performance to ensure reliability and low latency.

Viva Communications private limited

Voice Support Intern

Feb 2026 – Present

Chennai, India

- Developing a voice assistant capable of PDF text extraction, real-time speech-to-text processing, and multilingual translation using NLP and ASR models.
- Integrating advanced text-to-speech systems with native-speaker voice synthesis to generate natural and accurate audio output.
- Designing and implementing an end-to-end pipeline for seamless document ingestion, audio processing, and intelligent voice-based responses.

The Language & Cognition Laboratory (LC-lab) in IIT Madras

Project Intern

Dec 2025 – Jan 2026

Chennai, India

- Developed an AI-powered Tamil language proficiency system to evaluate Speaking, Writing, Reading, and Listening skills using NLP and semantic similarity models.
- Implemented an adaptive skill analysis engine that dynamically adjusts difficulty based on user performance and generates detailed performance insights.

Skill First Labs

Technical Intern

Oct 2025 – Nov 2025

Chennai, India

- Enhancing the intelligence of the skill evaluation system by analyzing job descriptions and candidate resumes to extract key skills, certifications, and competencies.
- data-driven scoring algorithms to quantify resume-to-job alignment and generate accurate compatibility scores, in collaboration with the development team.

Mahindra & Mahindra Ltd

Project Intern

June 2025 – July 2025

Chengalpattu, India

- Proposed and designed an intelligent metal parts inventory and smart locker system using IoT sensors, RFID/NFC, and ESP32 microcontrollers for real-time tracking and secure access control.
- Integrated cloud services (Python Flask API, AWS IoT Core, MQTT) to enable real-time monitoring, predictive maintenance, and scalable data communication.
- Developed AI-driven analytics for defect detection and condition monitoring, improving inventory reliability and operational efficiency.

SriGuru IT Solutions

Developer Intern

Dec 2024 – Dec 2024

Villupuram, India

- Developed a full-stack e-commerce web application using React.js, Python, and MySQL, delivering a seamless and scalable user experience.
- core functionalities including user authentication, product catalog management, shopping cart, and order processing.
- Integrated secure payment systems to enable real-world transaction handling and improve user trust.

Technical Skills

Programming & Core Development: Python, C, C++, Java, SQL, DSA, OOP, Problem Solving, System Design (Basics), API Integration
AI, Machine Learning & Generative AI: Machine Learning, Deep Learning, NLP, LLMs, RAG, AI Agents, Workflow Automation
Web Development & Backend Systems: HTML, CSS, JavaScript, React.js, Node.js, Express.js, REST APIs, Full-Stack Development
Databases & Data Analytics: MySQL, MongoDB, Vector Databases, Data Visualization, Tableau, Power BI

Certifications

SAP Certified – SAP Generative AI Developer: Gained expertise in SAP BTP, SAP AI Core, SAP AI Launchpad, and LLM-based AI application development.

Projects

AI-Driven Sleep Apnea Detection Using ECG Signals | *Random Forest, SVM, Neural Network* [\[GitHub\]](#) **Feb 2024**

- Developed an **AI-based sleep apnea detection system** using ECG signals, leveraging machine learning models like Random Forest, SVM, Logistic Regression, and MLP for binary classification.
- Designed a **feature engineering pipeline** extracting 12 time-domain and HRV-based features from ECG data, improving model interpretability and detection accuracy.
- Achieved **91% accuracy and 0.94 ROC-AUC** with Random Forest, demonstrating robust performance in identifying apnea events from imbalanced biomedical datasets.
- Built and deployed a **real-time diagnostic web application using Streamlit**, enabling ECG upload, automated analysis, visualization, and clinical report generation.

AI-powered Tamil language proficiency assessment platform | *MFCC+CNN, Llama 3.2, Qwen* [\[GitHub\]](#) **Dec 2025**

- Designed and developed an **AI-powered Tamil language proficiency assessment platform** evaluating reading, writing, listening, and speaking skills using NLP, ASR, and Large Language Models (LLMs).
- Built **multi-module evaluation pipelines** integrating Whisper ASR, Wav2Vec 2.0, and LLM-based semantic analysis to assess pronunciation, fluency, grammar, and contextual understanding.
- Implemented a **hybrid scoring system** combining rule-based grammar checks, embedding-based semantic similarity, and LLM-driven reasoning for accurate and interpretable evaluation.
- Developed a **scalable web-based platform** with real-time feedback and automated report generation, enabling objective and efficient language assessment for regional language learners.

Achievements

First Prize: Linguaverse Multilingual Hackathon 2026, SRMIST

First Prize: Project Expo Industry 4.0, SRMIST

First Prize: Machine Learning at Work, Innovation in Motion Project Expo 2025 , SRMIST

Third Prize: Prototype Presentation in Water Conclave 2026: Advancing Towards Water Security, SRMIST

Third Prize: Robotic Challenge 2026, SRMIST

Outstanding Student Leadership & Academic Engagement Award: AMIEE Association

SDG Student Ambassador Award 2025: Centre for Research in Environment, Sustainability Advocacy and Climate Change, SRMIST

Serveing as President: AMIEE Student Chapter, SRMIST

Best project Award: Tech - Know 2024, SRMIST

Special Mention: Ease the Error Hackathon, Sri Venkateswara College of Engineering

Extracurricular Activities

IEEE: Institute of Electrical and Electronics Engineers, Computer Society (Jan 2024 - Jan 2026)

AMIEE: Artificial Intelligence And Machine Learning Entrepreneurship And Engineers' Association (Aug 2025 to Present)
